

CLINICAL CARE OPTIONS NAMED OFFICIAL PROVIDER OF CONFERENCE COVERAGE FOR THE 8TH INTERNATIONAL AIDS SOCIETY CONFERENCE ON HIV PATHOGENESIS, TREATMENT AND PREVENTION

Reston, VA – May 4, 2015 – [Clinical Care Options](#) (CCO), the leading provider of clinical educational content and technological learning and information platforms, is pleased to announce its continued partnership with the International AIDS Society (IAS) at the 8th IAS Conference on HIV Pathogenesis, Treatment and Prevention (IAS 2015).

CCO's coverage from the event, to be held July 19-22, 2015, in Vancouver, British Columbia, Canada, will include Capsule Summaries of the most clinically relevant studies, selected by CCO's expert faculty; downloadable slidesets summarizing the key data; and analysis of the clinical implications of the major studies from panels of international experts.

"As the largest, open scientific conference on HIV, we consider it part of our mission to ensure that the breakthrough data presented at IAS 2015 are available to as many people as possible," said Professor Chris Beyrer, President of the International AIDS Society. "We are pleased to partner with CCO once again to make this happen."

"IAS 2015 is a critical event for HIV professionals including researchers, clinicians, and public health practitioners," said Edward King, MA, Chief Innovation Officer at CCO. "We are honored to be selected once again to deliver essential new information and educational resources from IAS 2015 to our members across the globe."

About the International AIDS Society

Founded in 1988, the International AIDS Society (IAS) is the world's largest association of HIV professionals, with members from more than 180 countries. IAS members work on all fronts of the global response to AIDS and include researchers, clinicians, policy and programme planners, and public health and community practitioners.

The IAS organizes the world's two most prestigious HIV conferences, each convened biennially in alternating years. The IAS Conference on HIV Pathogenesis, Treatment and Prevention features the latest HIV science, including basic, clinical, and prevention research. It brings together a broad cross-section of HIV professionals from around the world with a focus on implementation—moving scientific advances into practice. The International AIDS Conference is the largest conference on any global health or development issue. First convened during the peak of the AIDS epidemic in 1985, the conference continues to provide a unique forum for the intersection of science and advocacy and an opportunity to strengthen policies and programmes to ensure an evidence-based response to the epidemic. The next International AIDS Conference (AIDS 2016) will be held in Durban, South Africa (17-22 July 2016).

About Clinical Care Options

Clinical Care Options, LLC, is the leader in the development of innovative educational technology platforms that integrate all levels of medical education and information with personalization and moderated social media. CCO has been a pioneer in the creation of continuing education and decision
